PROFESSIONAL SUMMARY

Motivated BSCS student (4th Semester, CGPA 3.66) with a Merit Scholarship and hands-on experience in **Python, Java OOP, SQL, and Web Development**. Built a production-grade hybrid cryptographic file transfer system and a full-stack attendance management application. Strong foundation in database design, cryptography, and responsive UI development. Eager to contribute technical expertise as a **Data/SQL Intern** or **Junior Web Developer**.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Qarshi University, Lahore

2024 – 2028 (Expected)

CGPA: 3.66 / 4.00

- Merit-Based Scholarship for Academic Excellence
- Relevant Coursework: Database Management Systems, Data Structures & Algorithms, Programming Fundamentals, Computer Organization & Assembly Language

Intermediate in Computer Science (ICS)

Government College Chung

2021 – 2023

Marks: 928 / 1100

- Certificate of Merit for Outstanding Academic Performance

Matriculation — Science Group

Government Girls Higher Secondary School Chung

2019 – 2021

Marks: 1084 / 1100

- Certificate of Excellence for Securing High Marks

TECHNICAL SKILLS

Programming	Python, Java (OOP, Swing), C++
Web Development	HTML5, CSS3, JavaScript, Gradio, Responsive Design, Flexbox, CSS Grid
Databases	SQL, MySQL, DBMS, Relational Database Design, Normalization (1NF–3NF), Query Optimization
Cryptography & Security	AES-256 (EAX Mode), RSA-2048, SHA-256, Hybrid Cryptography, Digital Signatures, End-to-End Encryption
Design & Tools	CorelDRAW, Adobe Photoshop, Adobe Illustrator, MS Office Suite
Platforms & Dev Tools	Git, GitHub, VS Code, Google Colab, Version Control

PROJECTS

Secure File Transfer Through Cryptography

Python | Gradio | Cryptography

- Developed a **hybrid cryptographic file transfer system** with an interactive web-based UI using Python and Gradio.
- Implemented **AES-256 (EAX Mode)** for symmetric encryption and **RSA-2048** for asymmetric key exchange, ensuring military-grade end-to-end confidentiality.
- Integrated **SHA-256** hashing for integrity verification — detects tampering with encrypted payloads during transfer.
- Built a 3-tab application: RSA Key Generation, Sender Space (encryption & packaging), and Receiver Terminal (decryption & audit).

- Generated real-time cryptographic artifacts: public/private keypairs, encrypted AES session tokens, and digital hash signatures.

Student Attendance Management System

Java Swing | HTML | CSS | MySQL

- Developed a **desktop application (Java Swing)** and a web-based interface (HTML/CSS) for managing student attendance records.
- Implemented **user authentication, attendance marking, and automated report generation** with MySQL database integration.
- Applied OOP principles (Encapsulation, Inheritance) for modular code structure and built-in form validation for data accuracy.

Pension App UI Design

HTML5 | CSS3 | Responsive Design

- Designed a **responsive, user-friendly web interface** for a pension management system with structured navigation and clean layout.
- Implemented **mobile-first responsive design** using Flexbox and CSS Grid for seamless cross-device compatibility.

CERTIFICATIONS

- **Certificate in MS Office Tools** — Word, Excel, PowerPoint
- **Diploma in Basic Graphic Designing**
- **Diploma in IT Technical Training**

KEY ACHIEVEMENTS

- **Merit-Based Scholarship** — Qarshi University (Awarded for academic excellence in admission batch)
- **Certificate of Merit** — Government College Chung (ICS)
- **Certificate of Excellence** — GGHS Chung (Matriculation)
